

## **OPERATIONAL CONCLUSIONS**

### **OP Monitoring Committee for Multiannual Operational Programme on Environment and Energy 2024-2027**

**December 2025**

1. The Rules of Procedure for the Monitoring Committee of Multiannual Operational Programme on Environment and Energy 2024-2027 were adopted and all members are expected to comply with its provisions.
2. The General selection criteria for non-major projects under the Operational Programme on Environment and Energy under IPA III were adopted, enabling the EUD to proceed with the approval process for OIS applications. Preparatory work has already started on operations considered for funding from the 2024 and 2025 allocations. The finalization and approval of the OIS will duly take into account the General selection criteria for non-major projects adopted today.
3. National authorities should complete the preparation of procurement documents and calls for proposals in order to be ready to launch tenders for the 2024 and 2025 allocations as soon as OIS applications are approved by the EUD.
4. The MA will convene the first procurement and grants planning meeting within a month, inviting all relevant participants including the EUD, IBFM, NIPAC TS, IBPMs and NAO SO.
5. The next meeting of the OP MC is envisaged to take place in March 2026.
