Financing of this procurement and Disbursement Procedure:	KfW Development Bank, Frankfurt (KfW) The KfW Simplified Direct Disbursement Procedure shall apply The prerequisites for the disbursements for these works are not yet finalized. Any contractual commitment related to this procurement procedure shall remain subject to the readiness of disbursement of funds (expected prospectively until October 2021).	

The Republic of Serbia has received financing from KfW for the costs of the above-mentioned Project. Part of this Project is the engineering, supply of goods, installation and refurbishment works of district heating supply substations (DHSS) operated by the (municipal) district heating companies (Toplanas) of Bor, Negotin and Senta, comprising of the following scope:

- Engineering, manufacturing, procurement and assembly of different number of compact DHSS of different size
- Permitting procedures
- Supply of goods to the sites, installation and demolishing works
- Quality insurance measures for the Work in compliance with the suppliers instructions and applicable EU standards as defined in the Tender documents
- Workshop about pre-insulated DH pipe technology for the representatives of the Employers as defined in the Provisions and Additional Requirements

The Contractors Scope will comprise the replacement of existing and installation of new DHSS of different heat transfer capacity at several locations of the three (municipal) district heating companies (Toplanas). The limits of the Contractors Scope are the shut-off valves of the connection pipes inside the buildings executed by another Contractor The Commencement of the Works is expected in May 2022 and the Provisional Acceptance shall be issued not later than October, 2024.

This Pre-Qualification will be open to eligible Applicants who have experiences in design, supply of goods, installation and refurbishment works of substations and an annual turnover of $\geq 2,100,000$ (two million and one hundred thousand) EUR, single or as Joint Venture of maximum three entities. Further qualification requirements are specified in the Pre-Qualification Document.
